Dinosaur Daydreams

Paperback Set of 4 • 978-1-5158-2155-7

Everyone has dreams—even dinosaurs! But not every dream can become reality. For example, the brachiosaurus would love to be a spy! But 40 feet tall, he certainly would not blend in. And the T-rex aspires to be a knight. But how would she manage to pick up a sword with those tiny arms? Blending lighthearted text with humorous art, each picture book includes a look-and-find game and discussion questions.
